Lamoka-Waneta Lake Directory

Promoted by

LAMOKA-WANETA LAKES ASSOCIATION

Compiled by
JOHN V. STARK
330 W. Miller St.,
Newark, N. Y.

PRICE, $1.50

Printed by
THE COURIER PRESS
Arcade Bldg.,
Penn Yan, N. Y.

The first section of this directory gives in alphabetical order the names of the owners and the usual occupants of the cottages and homes on Lamoka and Waneta Lakes and on the lake roads, together with their winter addresses. The names are followed by y, o or r. y indicates the owner lives there the year around; o indicates the place is primarily for the owner's use rather than for rent and r indicates it is usually rented. Where a renter is listed, the owner's name is shown between * *. The cottage name is preceded by a—. The numbers on the east side of the lakes are followed by e, those on the west by w. R after a number indicates it is on the lake road rather than on the shore where the road is away from the shore.

To save space the abbreviation St. is omitted from addresses. E means Elmira; C means Corning; and PP means Painted Post. All addresses are New York State unless otherwise noted.

The numbering system is strictly on a mileage basis. Anyone who builds a new cottage should be sure of his correct number before using any. There have been several cases where the wrong number has been used and this only leads to confusion. Any number on the east side of either lake pointed off to two places is its distance from the outlet of Lamoka Lake measured along the shore. This is the same as its distance from the white school house down the Bradford road for any place north of where the lake road nears the shore of Lamoka Lake. Any number on the west side pointed off to two places is its distance from a point 3.5 miles south of the crossroad between the lakes. (This point was arbitrarily chosen so as to make the same numbers on the east and west sides of Waneta Lake come about opposite each other).

Where several places are the same distance away the one on the shore has no letter following the number, the first one back has A, the next B, etc., 50 feet being allotted for each place.

In the Silvan Beach section all places on the same side of the roads approximately prependicular to the shore have the same number with a letter to indicate its distance back from the lake. Those places in the wedge between the 701's and the 704's are all 703 with a letter to indicate its distance back from the lake.

The second section gives the named cottages in alphabetical order with their owners and their numbers.

The third section gives in geographical order the number of each cottage and home with its owner and its name.

Post Office Addresses

Places south of the cross road between the lakes are Bradford, R. D. 1

Waneta Lake, East and Utter and Claxton stores ..... Dundee, R. D. 1

Waneta Lake, West ..... Hammondsport, R. D. 1

Many near Wayne elect to get their mail at ..... Wayne, N. Y.

It is suggested that you remove the map from your old directory published seven years ago and paste it inside the back cover. The space has been left blank for this purpose. A few black and white prints of this map at 25c each are available for anyone who did not get the previous directory.

Lamoka-Waneta Lakes Association

The Lamoka-Waneta Lakes Association was formed in the summer of 1938 by an interested group of property owners and summer residents of Lakes Lamoka and Waneta and the surrounding territory.

The organization was organized to protect the interest of all property owners, residents, and summer residents of these lakes to the best of its ability.

At the time of organization the primary interest was the lakes' water level. The lakes at that time were being lowered considerably by the use of the water by a power company located on Keuka Lake. The lakes association feels proud of the accomplishments of this particular project. Through the cooperation of the power company and the Lakes Association, the water level has been about at a natural level during the last few years.

The Association is interested in all projects that will make the lakes a better place for recreation, health and etc., for the owners of property and summer residents. Among some of the important projects are things like prohibiting the dumping of garbage in or near the lakes and the throwing of objectionable objects into the lakes, such as glass, tin cans, etc., the education of operators of all types of motor boats to use caution and to respect the rights of fishermen and children in rowboats—the education of youngsters not to shoot rifles, etc., on the water, and the protection of wild life.

The officers and directors of the association always welcome suggestions from members as to anything that would be for the betterment of all concerned.

The association has been having two meetings a year, but are now planning on three—one the third Sunday in June, one the third Sunday in August and one in the fall.

The association looks unfavorably on property owners who are not members but sit back and find fault with what the association has or has not done. It will welcome to membership these folks so they can help do the things they think should be done.

The members are convinced that great things can be accomplished through unity; that an association with a large interested membership can accomplish more than a few individuals. It is also an aim of the Lakes Association to help promote acquaintance, fellowship, and friendship, for people better acquainted and friendly, can accomplish more than otherwise. That is why the members of the association believe that every property owner, summer resident and user of these lakes should be a member. The dues are $1.00 a year, a mere fraction of what is spent on even fishing tackle. Without an active association you would not have the pleasure and protection you now have.

The members of the association are proud of their lakes. The fish in these lakes are Oswego bass, calico bass, perch, pickerel, sun fish, and that greatest of all pan fish, the blue gill.

Again we urge all owners of property, users and residents of the lakes to become members. At the present time D. F. Smith, 374 So. Hampton Rds, Elmira, N. Y., is president, and L. S. Van Duser, 508 John St., Horseheads, N. Y., is secretary. Just send them a dollar for membership and help promote these beautiful lakes.

It will help considerably if the present members when selling their property or moving will notify the secretary.

The latest accomplishment of the association is this new and up to date directory made by that experienced surveyor John V. Stark of Newark, N. Y. Speak to your friends and neighbors about becoming a member and get directories and numbers for each cottage, so that we may near the 100% membership. Remember our slogan—P-o-P-o Protection of Property Owners).
